Eating colourful food
will always bring good mood

Eat yellow, red, white, green and blue
And the best kid in the world will be YOU!

An apple a day keeps the doctor away

Eat a colourful snack and the doctor won't come back!

**When you choose colourful food
You can also improve your mood**

**Red, yellow, white and green
They are rich in vitamins**

**If a healthy life is what you wish
Put many veggies in your dish!**
